Dear Jeremy:

Attached is the copy of the request for standing exception to Flight Attendant Medical Research Institute Grant Agreement (Sections VII and XI) of the University of California signed by Stanley M. Rosenblatt, Chairman and CEO of FAMRI. Please notify the appropriate institutions that this agreement has been made so they will anticipate receipt of their first payments.

Thank you for your attention to this matter. FAMRI is very excited about the work the scientists at University of California, Davis, University of California, San Diego and University of California, San Francisco will be doing to further our mission.

Sincerely yours,

  
Elizabeth A. Kress  
Executive Director
